

## HARDING GIVES CONCEPTION OF NATIONAL JOB

Senator In Cleveland Talk Wednesday To Touch On Obligation.

## BEGINS LAST TRIP Needs Of Legislation To Be Touched On In State Tour

Marion, O., Oct. 27.—Senator Warren G. Harding, Republican presidential candidate, before starting on his final campaign swing through Ohio today, issued a statement criticizing the United States department for circulating the Washington D. Vanderlip story.

"The entire matter is relatively unimportant," said Senator Harding, "except that it reveals the depths to which our once great department of state has fallen and emphasizes the need of restoring it to the reliability and dignity becoming our great republic."

State department officials had circulated reports linking Senator Harding's name with Vanderlip's alleged activities in Russia in behalf of American capitalists, intimating Vanderlip represented himself as Harding's personal agent to determine whether American recognition should be extended the Russian-bolshevik regime.

"I have noted the prominence given to my name in the press in connection with a Mr. Washington D. Vanderlip," said Senator Harding, "and his reputed activities in Russia I do not recall having met Mr. Vanderlip, he does not speak for me at home or abroad. I have no knowledge of his mission and I have no interest therein. It is wholly false that I have any connection with him or his mission. It is utterly false that he represents me in any way."

Senator Harding who will arrive late this afternoon in Cleveland, will go immediately to the Statler hotel for a reception, review and address a Republican torchlight procession after dinner, then deliver a prepared address in Grays armory. There will be no rear platform addresses today and possibly not tomorrow. Mrs. Harding accompanied the senator.

Marion, O., Oct. 27.—Swinging into his last campaign speaking trip, Senator Warren G. Harding, Republican candidate for president, left Marion today to stump Ohio, home of both "favorite sons" and final battle ground for the presidency.

While Senator Harding's four days' stumping tour will be restricted to Ohio audiences, his messages have been prepared as appeals to the whole American people.

In his speech tonight at Grays armory, Cleveland, the senator, it was indicated, will reveal in general terms his conception of the obligation and service to be rendered by the next president in unifying the American people in constructive effort. And in the remaining prepared speeches to be delivered on following nights at Akron, Cincinnati and Columbus, the Republican candidate will summarize in concrete fashion his views upon needed readjustment legislation, alleged Democratic inefficiency, the League of Nations knot, and other important subjects.

While rear platform speeches and handshaking of a generous portion did not figure on the prepared schedule Senator Harding was expected to do considerable of both before his Ohio trip, in which he will twice cross the state, ends early Sunday.

It is significant, political observers say, that Senator Harding is making his final big speeches in large industrial areas, where Governor Cox's strength is said to be greatest.

No more porch delegations will be received at Marion. When the swing through Ohio ends the senator will return to Marion and await the result of next Tuesday's balloting.

## REPUBLICAN VICTORY PROMISED FROM ALL OVER COUNTRY DECLARES HAYS

People Determined To Put End To Eight Years Of Maladministration at Washington and Reinstall Party Of Real Worth

BY WILL H. HAYS  
(Chairman Republican National Committee)

New York, Oct. 27.—It is the part of men who are engaged in work of whatever kind to be optimistic about the outcome of their endeavor. Sometimes it is hard to be optimistic and sometimes it is easy, but optimism always is necessary if one believes in cause for which he is working and intends to put into it all that there is in him.

In this campaign which is now being conducted in behalf of Harding and Coolidge, it is easy to be optimistic because of the great helplessness which comes, so to speak, from the signs of the times. Everywhere in this country, barring only the extreme and solid south, and even there in many places, there are indications

## COAL OPERATORS TAKE STEPS TO CUT COSTS

Speculators Blamed For High Price of Coal By Operators in Session at Cleveland—Reduction in Retail Price Expected Within Month.

Cleveland, O., Oct. 27.—Eliminate all unnecessary profits in coal handling.

This was the slogan today of Ohio coal operators who today took steps to make effective the resolution adopted yesterday at the meeting of soft coal producers from all sections of the United States in which opposition to exorbitant profits and unfair practices was voiced.

Immediate action to drive the speculators and middlemen out of the coal business were taken by the northern Ohio committee of operators today. The assertion was made with great positiveness that it was the work of these men, and not the

operators that had been responsible for excessive prices and had brought the business into disrepute before the public and caused the federal department of justice to threaten prosecution under the Lever law. Immediate withdrawal of inflated prices or exposure to the public as profiteers is the weapon depended upon by Ohio coal operators to force down the price of coal immediately. Those guilty it was said today will not be spared but on the other hand the operators themselves will aid in securing evidence to aid the department of justice in federal prosecutions.

Members of the committee behind the plan to force reasonable prices are:

S. H. Rollins, president, Y. & O. Coal Co., T. K. Maher, president, Maher Collieries Co., Michael Gallagher, M. A. Hanna Company; Whitman Warren, W. H. Warren Co. Z. E. Maurer, Glens Run Coal Co.

A big reduction of retail prices within a month is confidently predicted some operators saying that coal will sell for less than \$9 a ton within a month.

## FESS SAYS HARDING WILL CARRY OHIO BY AT LEAST 100,000

Senator Will Receive 345 Electoral Votes Is Prediction.

Marietta, O., Oct. 27.—Sen. Harding will receive no less than 345 electoral votes and will be supported in the new administration by a Republican senate majority of 11 to 17, and a house majority of more than 70, Congressman Simeon D. Fess, Republican floor leader in the House declared in addressing a large audience here last night.

"The senator will carry Ohio," he predicted, "by a majority of at least 100,000, sweeping the entire Republican state ticket to victory with him. He will carry every state north of the Mason and Dixon line, with only Montana in doubt.

"America is tired of Wilsonism and is determined to make an end to the autocratic government in which the executive seeks to override the other departments of the government, inaugurated by him."

## SENATOR DEMANDS PROSECUTION OF COAL OPERATORS

Calder Raps Government On Attitude Toward Matter.

New York, Oct. 27.—Charges that the federal government has taken no steps to protect the country from coal profiteers were made in an address at a Republican mass meeting in Brooklyn last night by Senator Calder of New York. He ridiculed recent efforts by Attorney General Palmer to induce coal operators to agree upon a "fair price" for their product.

The senator demanded that coal operators who have unnecessarily increased prices be prosecuted, and criticized the department of justice for failure to prosecute Southern sugar growers who he claimed were responsible for the high price of sugar.

The speaker reviewed failure of the government to contract for the Cuban cane sugar crop in 1919 at a low price, and declared this failure "added hundreds of millions of dollars to the high cost of living." Senator Calder compared the present coal situation to the sugar market a year ago.

## POLICEMAN WOUNDED

Chicago, Oct. 27.—Louis Woehr, a policeman was shot and probably fatally wounded early today in a pistol battle with liquor thieves whom he surprised attempting to rob a warehouse owned by a wholesale drug firm.

## HEART FAILURE IS CAUSE OF MACSWINEY DEATH IS VERDICT

Coroner's Jury Does Not Mention Suicide In Decision

London, Oct. 27.—A verdict that Terence MacSwiney, late lord mayor of Cork, died of heart failure, was returned by a coroner's jury in Brixton jail this afternoon. The verdict did not mention "suicide."

The coroner refused permission to ship the body to Ireland for burial on the ground that it was outside his jurisdiction.

Members of the MacSwiney family immediately appealed to the home office to lift the coroner's embargo against the removal of the body from England.

The finding of the coroner's jury was that:

"The deceased died of heart failure, due to dilated heart and acute delirium, following scurvy due to exhaustion and following a prolonged refusal to take food."

A warning of reprisals was sounded by deputy lord mayor O'Callahan of Cork, who came to London with a delegation of Cork officials to attend the funeral services.

"Terence MacSwiney is leaving behind many patriots who will see that the debt to the British government is fully paid," said O'Callahan. "The English government thinks it has stifled us, but there will be reprisals soon."

## OVER 700 WORKERS ARE IDLE AS BIG MILLS CLOSE DOWN

Coatesville, Pa., Oct. 27.—More than 700 workmen of the Midvale Steel Company are idle and three of the big plate mills are closed today for an indefinite period because of the general slow down in orders. More than a dozen families have moved from the city as a result of the enforced idleness of the steel workers.

## CATTLE RAISERS TO ACQUIRE STOCK YARDS

Washington, Oct. 27.—Cattle raisers, by virtue of a court decree soon to be entered, are to acquire absolute stock control of all the country's stock yards and terminals, wresting away the power wielded for many years by the five big packers. The packers' new plan to sell these properties with preference to cattle growers in purchase of outstanding shares of stock, today was before Attorney General Palmer, who subjected it to analysis before recommending its acceptance by the court. The plan divides the packers, all of voice in the control of the yards and transfer control to five court trustees, acting for stockholders, largely comprising the cattlemen.

## DAYTON WORKERS GIVEN INCREASE

Dayton, O., Oct. 27.—A slight increase in pay over that prevailing at the time local street car conductors and motormen went on a 16-day strike here last summer, is allowed by the board of arbitration which reported today, following several days' conference and examinations here. The new scale is: First three months, 58 cents; next nine months, 60 cents and after first year 62 cents. Employees other than conductors and motormen are to draw under the scale established June 16, 1920.

## COX ATTITUDE TOWARD IRISH ISSUE SCORED

Sir Edward Carson Describes Cox's Stand As Comical

## SAYS IT'S UNAMERICAN

Position On Irish Question Not Understandable He Says

London, Oct. 27.—The following statement by Sir Edward Carson, M. P. Leader of the Ulster Unionists on the attitude of Governor James M. Cox, Democratic presidential nominee, toward Ireland and the League of Nations, was printed by the Daily Graphic today:

"Could anything be more likely to frustrate the object of the League of Nations than to make statements and promises in the United States for the purpose of obtaining hyphenated votes? It is comical for a country to advance any policy before it is in the League of Nations. If such a cause becomes common each nation would have to interfere in the governmental elections of the others and try its cases before it came before the council of the league. It is difficult for those of us who have followed the action of Abraham Lincoln in the war of secession to understand the mentality of a candidate who can claim (the right) to break up a union of states in a foreign country which (break up) neither he nor any other genuine American would allow in his own country."

## "WILD YEAST GERMS" CLAIMED CAUSED ALCOHOL PRESENCE

Find Percentage Of Alcohol In Barrels Containing Water.

Marietta, O., Oct. 27.—Look out for "wild yeast germs," floating around in the air and keep old barrels empty and dry or prohibition enforcement agents may call.

Four persons on trial here charged with having "intoxicating liquor illegally in their possession," claim the five barrels of water, containing by chemical analysis, sugar, a trace of molasses and a maximum of 1.27 per cent alcohol were bought by the defendant and resold at a profit. Nothing but water was put in them, it was claimed. Defense and prosecution agreed that "wild yeast germs" in the air might have caused the fermentation. The case is being hard fought and attracting considerable attention. The decision of U. C. Commissioner T. J. Summers will, it is said, create a new chapter in prohibition decisions.

## SOCIALISTS PROCLAIM RHINELAND REPUBLIC

Berlin, Oct. 27.—Independent socialists in Westphalia are preparing to proclaim a republic of the Rhineland according to advices today from Düsseldorf where the Rhineland independent socialists are holding a convention. It is reported that the independent socialists in Western Prussia have organized an army of 10,000 men and that the most of them are concentrated in the Ruhr district, the seat of Germany's greatest coal fields.

## OWL CAUSES GREAT DAMAGE TO PLANT

Youngstown, O., Oct. 27.—Traffic was hampered badly and damage amounting to several thousand dollars was done last night when a screech owl measuring fifty-four inches flew against a high tension wire on the Youngstown and Suburban Railway south of this city. The bird struck a large dynamo in the local car barns the hot copper melting on the floor started fire which was put out by employees.

## GRAND DAUGHTER OF GRANT ACCORDED RECEPTION IN OHIO

Columbus, O., Oct. 27.—Princess Cantacuzene, grand daughter of former President U. S. Grant, is to be accorded a reception upon her arrival here today. She expects to visit the cabin in which he illustrious ancestor was born. The cabin, moved from Point Pleasant, is on the state fair grounds.

## PERSHING GREETES ALASKAN FLYERS

General Pershing congratulating Captain St. Clair Street, leader of the New York to Nome, Alaska, and return flyers. The planes were inspected at Bolling

Field, Washington, by General Pershing and General Menoher, chief of the Air Service. The airmen flew from New York to Washington for the inspection.

## COLBY REPORT CAUSES STIR IN WASHINGTON

Republicans Declare Statement Of Alleged Agent Of Harding Was Based On Hearsay Only and Aimed To Embarrass Republican Candidate.

Washington, Oct. 27.—The pot of politics was boiling merrily here today, with President Wilson acting as the head chef.

The president today is expected to add fuel to the political fires when he receives a delegation of sympathizers with the League of Nations, headed by Hamilton Holt of New York. It is expected the president will make a statement on the league issue which may be his final contribution to the presidential campaign.

The arrangements for the conference were not announced at the White House and just what methods the

president has chosen to follow were undisclosed.

Secretary Colby's announcement that the state department had a report that Washington Vanderlip had been in soviet Russia, claiming to represent Senator Harding, and Senator Harding's denial of any knowledge of Vanderlip or his presence in Russia, also caused a considerable stir in political circles here.

While Secretary Colby was supported by Democratic adherents for making public the report which reached the state department on Oct. 20, Republicans were incensed at what they charged was a statement based on a "hearsay" report. There is some conjecture as to just why Secretary Colby issued the statement late yesterday afternoon. When Under-Secretary of State Davis made the statement yesterday morning concerning Vanderlip and then ordered it withheld from publication, Secretary Colby was approached by newspapermen and asked for information concerning the statement, made by the under-secretary and he refused to support statement, although later in the day he did so.

## AMERICAN CITIZENS KILLED AT HANDS OF MEXICAN BANDITS

Federal Troops Fire On Chamber Of Deputies Says Report.

Washington, Oct. 27.—Two American citizens have been killed in the Tampico oil fields, dispatches to the state department said. They were Arthur L. Mosley and Gustave E. Sailer (or Salier). The report said the men were killed yesterday afternoon at Vega de Otates, near Tampico. No details were given.

A passport was issued to Mosley, of Matagorda, Texas, last October 7, but there is no record of a passport having been issued to Salier.

Mexico City, Oct. 27.—Two members of the Chamber of Deputies of the State of Tabasco were killed when Federal soldiers, seeking to arrest one of the deputies, opened fire upon the Chamber while it was in session. The President of the Chamber, a woman spectator and two men, employed in the building, were wounded, according to advices to the War Department.

Deputy Manuel Lacana became involved in a quarrel with an army captain and shot and killed his opponent. He then sought refuge in the Chamber of Deputies, whither soldiers were sent by Colonel Carlos Green.

Cesar Callejo, President of the Chamber, refused to heed demands for the surrender of Lacana and, after much parleying, the soldiers fired a volley into the crowded Chamber. Lacana and Deputy Alberto Nicolas Caceres were killed. Several deputies returned the fire, whereupon the soldiers retired. Governor Green immediately placed San Juan Bautista, the capital, under virtual martial law.

## FIFTEEN HUNDRED DELEGATES ATTEND COLUMBUS MEETING

Columbus, O., Oct. 27.—More than 1500 delegates are attending the sessions of the Grand chapter of Ohio, Order of Eastern Star. Prediction has been made that the number of visiting members and delegates will reach 2500 before the final business session is held tomorrow. Election of grand officers will take place tonight.

## LOVE BANDIT PLAYS GAME SUCCESSFULLY

Canton, O., Oct. 27.—A lone bandit is playing havoc among foreign restaurants and candy stores here. For three nights in succession he has worked the same game. Last night he walked into a Greek restaurant ordered and ate an expensive meal. No one but he and the waiter were in the place. As he presented his check he pulled a gun, and took the contents of the cash register. He worked the same stunt in another restaurant and a candy store, and so far his operations have netted him more than \$200.

## RUSSIA WITHDRAWS TROOPS FROM FRONT

Warsaw, Oct. 27.—Soviet Russia is withdrawing her troops from the Polish battle front. There are indications that the soviet war office has begun to mass heavy reinforcements upon the South Russian front for a winter attack against the army of General Wrangel. There has been no fighting on the Russo-Polish front since the armistice went into effect on the 18th.

## ACCEPT PLAN FOR STRIKE SETTLEMENT

London, Oct. 27.—The government's proposals for settlement of the national coal strike were accepted by the colliery owners today according to the Central News. It is regarded as virtually certain that the miners delegates will hold conference on Friday to give final decision on the government plan.

## DUNKARDS URGED TO VOTE

Columbus, Ohio, Oct. 27.—In German Baptist or "Dunkard" churches in various parts of Ohio, sermons were preached Sunday for the League of Nations as a means of preventing wars, political leaders were told today.

## JURY FINISHES ITS PROBE INTO BALL SCANDAL

No Further Indictments To Be Returned By Body.

## 13 UNDER CLOUD

Expect Statement From Comiskey On New Charge From West

Chicago, Oct. 27.—No further indictments will be returned by the grand jury here in connection with its investigation of dishonesty in organized baseball, it is considered certain today. The jury is said to have concluded its probe so far as examination of witnesses is concerned but will meet Friday to make its formal return to the court.

Thirteen men have been indicted by the grand jury and these true bills will be formally returned in court. The indictments name Joe Jackson, Eddie Cicotte, Claude Williams, George Weaver, Oscar Felsch, Charles Hishig and Fred McMullen, active members of the Chicago White Sox during the 1919 season; Arnold Gaxdli, former first baseman of the Sox; Hal Chase, former first baseman of the New York Americans; Chicago White Sox, Cincinnati Reds and New York Giants; Bill Burns, erstwhile pitcher for the White Sox; Abe Attell, former featherweight champion; J. J. "Sport" Sullivan and Rachel Brown, alleged Boston gamblers.

Although it has given some attention to the conduct of baseball pools, it is understood that the grand jury will deal with this phase of baseball gambling through recommendations only, rather than indictments.

Considerable discussion was aroused here today by the testimony before the jury yesterday by Harvey Reckmond, hotel keeper of East St. Louis, Ill., that he had informed Comiskey owner of the White Sox that eight members of his team had sold out to the gamblers more than a year ago. It was expected a statement from Comiskey would be forthcoming.

## ULTERIOR MOTIVE BEHIND STATEMENT DECLARES HARDING

Senator Sees In Report Attempt To Smoke Him Out

Marion, O., Oct. 27.—The view was expressed at Senator Warren G. Harding's headquarters today that reports were spread linking the senator's name with alleged activities of Washington D. Vanderlip in Russia in order to embarrass the Republican presidential candidate.

Senator Harding, who declares he never before heard of this Vanderlip and has no agent in Russia, also saw in the spreading of this report by Washington officials an attempt to smoke him out of the policy he will have toward Russia, if elected.

The Republican candidate has given little study recently to the Russian situation but those in his confidence say that if elected he will approach that tangle with an unbiased mind, not play into the hands of foreign nations who have ulterior designs on Russia, and keep a sharp lookout for American business interests in that nation.

## SHOOTING AFFAIR RESULTS SERIOUSLY

Springfield, O., Oct. 27.—Miss Thelma Keller, 20, is in a critical condition at city hospital as a result of a shooting affair. She accuses Mrs. Frank Snowden, wife of Captain Snowden, world war soldier.

Mrs. Snowden is in jail pending developments. The shooting is said to have occurred at 147 West Mulberry street, following a visit of Mrs. Snowden, who, it is claimed became jealous of the girl.

Miss Keller is suffering from three bullet wounds, two in her side and one in her nose.

## DRYS FILE REPORTS

Washington, Oct. 27.—Reports of the National Prohibition party, filed with the Clerk of the House of Representatives showed receipts of \$13,244.49 in the party's national Presidential campaign and expenditures of \$13,017.80 up to October 18.

## EARNINGS OF STEEL COMPANY SHOW BIG INCREASE FOR YEAR

New York, Oct. 27.—Total earnings of the U. S. Steel Corporation for the third quarter of the calendar year, totaled \$48,051,540, a gain of \$4,893,835 over the preceding period.

Net increase of \$35,739,137, showed a gain of \$4,050,833 with a surplus of \$17,869,939, as compared with \$13,776,833 three months ago.

Earnings applicable to the common stock, after payment of various interest charges and the preferred dividends, were equal to \$4.76 a share, an increase of exactly 80 cents over the preceding quarter. The usual dividends of 1 3/4 percent on the preferred and 1 1/2 percent on the common were declared by the directors evidently having no thought of an "extra disbursement" on the junior issue, despite market gossip to the contrary.

Examination of the statement by monthly stages, disclosed largest earnings for July with a decline of almost \$1,000,000 in August and a fairly good recovery in September.

In substance, the report confirms the testimony of observers of trade conditions, namely, that the steel and iron industry is marking time, sending a readjustment, presumably downward of price schedules.

## CEDARVILLE

Miss Helen Davis of Dayton, who has been the guest of Mr. and Mrs. Enos Hill for the past two weeks returned to her home Monday.

Mrs. Harry Townsley was hostess to the Home Culture Club, Tuesday afternoon, October 19.

## MRS. THOMAS' WORD TO WOMEN

Tells of the Great Good Lydia E. Pinkham's Vegetable Compound Did For Her.

Morrice, Mich.—"About a year after my second baby was born I suffered with dizziness every morning so that I could hardly get around. I had heard from other women about your medicine and had read letters about it so my husband got me Lydia E. Pinkham's Vegetable Compound which I took according to directions and in a short time I was entirely relieved. I also took the Vegetable Compound before my last baby came and am thankful to say that it relieved my sufferings very much and I shall never be without it at such times. I have told others of its great worth and shall keep on telling it."—Mrs. Ed. THOMAS, Box 184, Morrice, Mich.

Women should not continue to suffer day in and day out and drag out a sickly, half-hearted existence, missing three-fourths of the joy of living, when they can find health in Lydia E. Pinkham's Vegetable Compound.

## BEAUTY CHATS

Throat Massage.

Some days ago I suggested a daily washing out of the throat by gargling and antiseptics as a means of improving the voice and of keeping the throat in a healthy condition. Another method which will indirectly improve your voice, and which will directly improve the appearance of your neck is a daily massage.

It is possible, of course, to keep the face looking young far along in life if the skin is properly cared for. It is equally possible to keep the neck young beyond this middle period if the same care is taken of it. But the neck is often neglected, though the face is given the best of care, and the result is a whole collarette of wrinkles in the early thirties.

When you use cold cream on your face never neglect to rub a little on the neck also. If you are in a hurry and do not want to remove your blouse you can at least rub a little down the front of the throat where the earliest wrinkles come. If possible, take extra time and every few days give the neck a thorough massage.

If you are in your thirties and lines are showing, use olive oil or a flesh building cream; if you are over 50, use warm cocoa butter. If you are very young a cleansing cream is sufficient, since it will keep the skin beautifully clear and white.

For wrinkles the massage motion should be up and down to clear the inner passages of the throat and improve the voice. Use a circular motion directly over the windpipe. Exercises which benefit the neck are also to be recommended, both for improving the quality of the voice and for preventing flabby skin and wrinkles.

Moira—All soda fountain drinks are somewhat fattening, mostly through the excessive amount of sugar in them; however, the one you mention, made from lemons or lemons, has enough of the acid from these flavors to counteract much of the fattening properties from the sugar. The dessert you mention has so little of anything to it that it does not count. The various meats that you mention are

fattening only in the proportion of the fat that is cooked with them. The sausages would be very fattening, since they contain so much pork. If you send an addressed, stamped envelope I shall be pleased to mail you a formula for a hair tonic.

This is Excellent for You.

Elaine.—You should weigh about ten more pounds. Increase your weight by eating more foods that contain milk eggs or fats, but do not overeat and spoil your digestion. The walnut stain may be made at this season of the year by steeping the shells that cover the walnut, just as you take them from the trees. Make it like a strong tea and put as much alcohol to it as you have juice. It takes very

little to stain the lashes, so an ounce would be all that you need for a year. It should be done as often as it bleaches out. Send an addressed, stamped envelope for the tonic.

### HALLOWEEN PARTY GIVEN AT CHURCH

Between forty and fifty young people attended the masquerade Halloween party given by the Young People's Society of the Second United Presbyterian church at the church Monday night.

In keeping with the season the event was held in the basement of the building which was uncanny with spooky and ghosts of all descriptions. Entrance was only permitted through the upper floor of the church. A clever chute-the-chutes had been ingeniously constructed with an inclined plane and a large bath tub as the vehicle of descent. This was operated with a stout rope which let the visitor down easily or with a hush as the operator desired.

Having successfully passed the Jack-O-Lantern faces and the numerous spooky each person was ushered into the dining room which had been converted into a large corn field with profuse decorations of corn shocks, pumpkins and other suitable adornments.

A program of snappy stunts followed, the young men and young women being divided into five groups for the program. Refreshments of milk and sandwiches were served from witches' cauldrons and Kettles.

A business session of the society divulged a winter's outline of work among young people of great promise.

The whole affair was one of the most successful of the many get-togethers of the Second Church young people and was in charge of the Social Committee, Miss Margaret Harper, Mr. David Bryson, Mr. William Anderson and Miss Lois Hutchison, assisted by the President of the society Miss Mary Anderson.

### MARRIAGE OCCURS EARLY TUESDAY

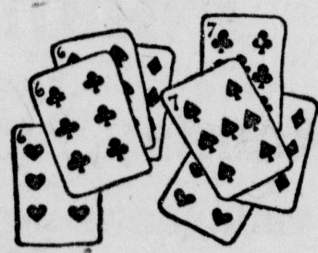

The marriage of Miss Anna Haas and Kenneth Oster took place at St. Raphael's church, Springfield, Tuesday morning at 7:30 o'clock, the Father Buckley officiating at the service. The nuptial high mass was read at the ceremony. The attendants were Miss Helen Oster, sister of the groom and Paul Oster the bridegroom's cousin. The bride wore a suit of dark blue trimmed in fur, with a small hat to match, and carried Ophelia roses. Miss Oster also wore dark blue and carried Killarney roses.

A wedding breakfast with about forty guests in attendance followed the ceremony at the bride's parents' home at 29 W. Main street, Springfield. The Haas home was decorated in yellow and white and large bouquets of yellow and white chrysanthemums were used on the table. Mr. and Mrs. Oster left for Cleveland to spend their honeymoon and upon their return they will make their home on the Oster farm in Yellow Springs.

Mrs. Oster is the daughter of Mr. and Mrs. J. W. Haas of Springfield, and is a very attractive and popular girl. Mr. Oster is employed at the Wright aviation field, Fairfield.

## COURT OF APPEALS UPHOLDS DECISIONS OF JUDGE KYLE

The Court of Appeals, in a decision handed down Tuesday, affirmed the decision of Judge C. H. Kyle, of the Common Pleas Court, in the case of the P. C. C. & St. L. Railway Company, against George W. Sheets former clerk of the courts as to the judgment for costs.

The court ordered the same judgment for costs. Matthews and Matthews, were attorneys for the plaintiff and W. L. Miller was attorney for the defendant. The original decision of Judge Kyle provided that the defendant pay the costs in all except the court of appeals.

In the case of Charles L. Darlington against the P. C. C. & St. L. Railway Company, the Court of Appeals in a verdict issued Tuesday adhered to the former decision and affirmed the opinion of Judge C. H. Kyle that the additional evidence submitted was not sufficient to overcome the findings in the former decision. The case was one determining a right of way and the original decision of Judge Kyle which was upheld in Appellate Court, was in favor of the railroad.

## DAVIS MAKES SPEECH TO CLEVELAND CROWD

Cleveland, Oct. 27.—Addressing a mass meeting of Cleveland women at Grays armory this afternoon, Harry L. Davis, Republican candidate for governor, said his opponent would have the women believe that the people who supported him thrice for mayor were of a "vicious and unclean class."

"Many of you present are the wives or daughters of my constant supporters," said Davis. "I can't believe that the people of Cleveland are going to endorse any such insinuation of my opponent."

Davis speaks twice tonight with Senator Harding. Except for speeches tomorrow afternoon at Ravenna and tomorrow night at Akron, Davis will campaign in Cleveland the balance of the campaign.

## MRS. JOHN POLITICS- INDEPENDENT

### Chapter V.

"The fact is," continued Mrs. Politics, "We are confronted with a very serious situation this fall. Both presidential parties have dodged the issue and are playing to both sides, and many cannot support either candidate because of his attitude on this question. The man running at the head of your state ticket is about as wet as a man could be, and his record in other respects is not good. He was not the choice of the best element of your party. You know you said at the time of the primary you were sorry he was nominated. Now you act as if you expected to vote for him, even though his opponent is a 'dry' man and has a good record behind him, both in office and out. If the 'wets' can succeed in electing him for Governor it will mean a great victory for their cause, and I sincerely believe it will prove a boomerang against your party. Then the 'wets' will cry 'We elected our man in spite of the fact that women have the ballot,' and Ohio will be pointed to, all over the Nation as indication that public sentiment is changing in favor of the 'wets.'"

We understand that our liquor friends are preparing a bill to present at our next congress for the purpose of amending the Volstead Act so that liquor containing a much larger per cent of alcohol than now permitted may be sold anywhere, any time, without any restrictions whatsoever. It becomes very necessary, then to vote for a 'dry' man for Governor; one that can be depended upon to remove from office state officials who fail to do their duty in the matter of enforcing Prohibition."

"Now wife," said Mr. Politics, "You certainly heard what our speakers said the other night about the need of supporting our candidates and voting a straight Republican ticket, and they intimated that the people who voted a mixed ticket were simply Democrats."

"Oh, yes," said Mrs. Politics, "I heard that, and felt very sorry indeed that men so prominent as they have been in the temperance work would advocate voting for 'wet' men. I said to a prominent Republican the other day, 'It certainly is a pity that men like these think they must stand for a man like that simply because he is on their ticket.' He looked at me and smiled, then said, 'Oh, they have to do that sort of thing for they are all running for office.' Your speakers are not the only ones, however, who are guilty in this respect. A prominent Democrat said

at one of their meetings the other night that he was never quite so proud of the candidates of his party as this year, but he certainly has overlooked the man who has been nominated as the leader of his party, who was nominated largely through the influence of the 'wets' because he is known everywhere as favoring their cause. Why this prominent Democrat, who himself is a temperance man, could stand so strongly for such a candidate could scarcely be explained on any other grounds than blind partisanship.

To be a politician these days seems to mean the sacrifice of manhood and principle for mere policy, or else men are so blinded by prejudice that they cannot or will not admit the truth about their own candidates.

"As to the charge that we temperance workers in this campaign are all Democrats, will say that it strikes me as rather amusing, for those of your political faith have always contended that your party contained a majority of the temperance people, but now according to the assertion of some of your speakers, all the temperance workers belong to the other party."

"In calling us Democrats they do not seem to realize they are not injuring us but simply handing a bouquet to the other side."

Tomorrow—Mrs. Politics finishes Her Explanation

## TWO STILL TAKEN IN RAID ON PLACE NEAR BELLBROOK

Two men were arrested and two illicit whiskey stills confiscated by the sheriff and his deputies in a raid conducted in a cabin on the Newton Berryhill farm below Bellbrook Tuesday afternoon.

Two copper kettles of 18 gallon capacity and the coils to go with them, two stoves, and eight barrels of corn mash containing about 100 pounds of mash in each barrel, were confiscated by the authorities. Two Russians, giving their address as Dayton, were taken into custody and are being held for federal authorities.

The discovery was made through information furnished by Newton Berryhill, owner of the farm on which the stills were found. He said he rented the cabin to the men about a month ago, the renters saying that they wanted it to live in. Sunday Mr. Berryhill noticed the smell of whiskey when he approached the cabin and an investigation disclosed the stills. He immediately notified authorities who made the raid.

## PUT FIGHTING QUALITIES IN YOUR BLOOD

If You Are Pale and Weak,  
Without Ambition, You  
Need a Tonic

TRY TAKING PEPTO-MANGAN

Rich, Red Blood Fights Off Disease and Keeps You Well and Enables You to Work With Pleasure

Serious sickness often comes when you least suspect. You may feel a little over-tired. You haven't been exposed to contagion, yet all of a sudden you are flat on your back and in for a siege of sickness.

Your blood did not have fighting qualities. It was weak and thin. Your vitality and powers of resistance were low.

When you overdo you use up energy. Your blood is driven to do more than it can. It comes clogged with waste. The waste acts like poison. Disease germs get in your blood and dominate.

Don't let yourself get run down. Take that good tonic, Pepto-Mangan. It makes rich, red blood that will resist and route out disease germs.

Pepto-Mangan is widely and heartily endorsed by physicians. It is effective and easy to take. Comes in either liquid or tablet form. Both have the same effect. M. M.

Sold at any drug store. But be sure you get the genuine Pepto-Mangan "Gude's". Ask for it by the name and be sure the full name, "Gude's Pepto-Mangan," is on the package.—Advertisement.

## "COULD EAT A KEG OF NAILS" SAID A LANCASTER MAN

For twenty years stomach has bothered him by filling up with gas after meals; liver was sluggish and kidneys weak. Declares the herbal medicine Drecto has overcome these troubles and filled him full of vim and vigor.

"I actually believe I could eat a keg of nails, and it wouldn't hurt my stomach, since I've been taking this medicine, Drecto," declared Mr. Oscar Hoyman, 327 W. Main St., Lancaster, O.

"It used to be right after meals my stomach would fill up with gas, which made me very uncomfortable, and gave me a choking sensation in my throat. My kidneys became affected, giving aching pains in my back and limbs, something like rheumatism. My liver was sluggish so that headaches and dizzy spells often attacked me. I became so nervous that I didn't know what it was to get a good night's sleep. I had to take medicine nearly every night to keep my bowels moving."

"I believe Drecto helped me from the first dose, for the gas was relieved very quickly, and my stomach was more comfortable than it has been in a long time. My bowels acted easy and normal and the pains in my back became less as I continued the treatment. I also noticed that the catarrh did not trouble me so bad. Every morning now I get up feeling refreshed and full of vim and energy ready for the day's work. Drecto is certainly a great medicine, and I'm boasting it to all my friends."

All druggists now sell Drecto and it is being especially introduced in Xenia at Sohn's Drug

## THAT ELUSIVE THING CALLED HAPPINESS; WHERE IS IT FOUND?

Seek Happiness for its own sake, and you will not find it; seek it in the path of Duty and Happiness will follow as the shadow comes with the sunshine. It is only a poor sort of Happiness that centers solely on pleasures for ourselves, compared to that which comes from thoughts and feelings for others. The chief secret of comfort lies in not suffering trifles to vex us, the fountain of contentment must spring up in the mind; and how, say you, can this be brought about? By cultivation of the spirit of Contentment. True contentment depends not upon what we have—a tub was large enough for Diogenes, but a world was too little for Alexander.

Almost everywhere the elusive search for happiness goes on. Men try to accumulate money and other things, with the persistent belief that happiness will be found when something more is possessed. But the chase is endless. Possession of one thing brings contentment for only a moment, and then something else is seen to be desirable, sometimes because another person owns it or doesn't own it.

Civilized man is dependent upon a certain number of things, and his position among others may be more easily maintained in many cases if he actually possesses the things. The trouble is not found in such possession, but in the fact that well being and happiness are made to depend on it.

Often when ownership of things has failed to bring what it promised, there are those who turn to still other sources outside themselves. They decide they will be happy if they can just go somewhere else; they look from the country to the city, from one city to another or from one land to another, all the time with the belief that what they need is a change of locality. If they can't make the change they are miserable; and the chances are that if they make it they still will be miserable.

And there are some people, too, who think their happiness is dependent upon somebody else, upon what somebody does or fails to do. Among these are the persons who believe that if they marry, somebody else will keep them happy. And all of them come in the end to learn that they have to do their part.

The broad fact is that happiness is an internal affair, a personal affair, dependent upon the individual, and finally upon nothing else.

## ONE WOMAN TELLS WHY SHE IS A REPUBLICAN.

"With a very definite idea in mind as to what I could and would do with my vote, I struggled years to bring about the enfranchisement of the colored man. This accomplished and the question of party arising, I find what? First, that I had to secure my enfranchisement not because of, but in spite of the Democratic party. This for me would be sufficient reason why I should be a Republican, but there are others.

"I find that in the matter of Child Labor, the handmaiden of illiteracy, there are fifty times as many young children employed in industry in Democratic states as are employed in Republican ones.

"I find the percentage of illiteracy according to the United States census of 1910, running from twenty-nine per cent in Democratic Louisiana to one and seven-tenth per cent in Republican Iowa, with statistics denying the statement that the high per cent of illiteracy in the South is brought about by the ignorant colored vote.

"I find that seven only of the democratic states have a compulsory education law.

"I find that while a majority of the states have mothers' pensions just six Democratic states have this law.

"I find that only three Democratic states in the nation grant to mothers equal guardianship with fathers over the children of them both.

"So, instead of joining the retarded Democratic party and using the remainder of my working years in an attempt to bring it up to the advanced position already attained by the Republican party, I joined the Republican party and lend what little strength I have to help it push still further forward the legislation which is of vital importance to the nation."

MRS. FRANK DODSON,

Chairman of the Republican Women's Committee of Iowa.

## THE ILLITERACY OF THE SOUTHERN DEMOCRATIC STATES IS A DISGRACE TO THE NATION.

"Illiteracy in our draft army shocked us, but illiteracy existed before the World War. It existed because children had gone to work instead of school. Adult illiteracy is the inevitable consequence of child labor. The census of 1910 told us this, but we did not heed sufficiently. The area of rural child labor and adult illiteracy are largely identical."

It might be thought accidental that Republican Iowa should rank at the top with only 1.7 per cent illiteracy, and Democratic Louisiana at the bottom with 29 per cent if there were not an almost unbroken uniformity in the rankings. There are only six Democratic states whose illiteracy ranks lower than 12 per cent, and only two Republican states whose illiteracy ranks as high as 12 per cent.

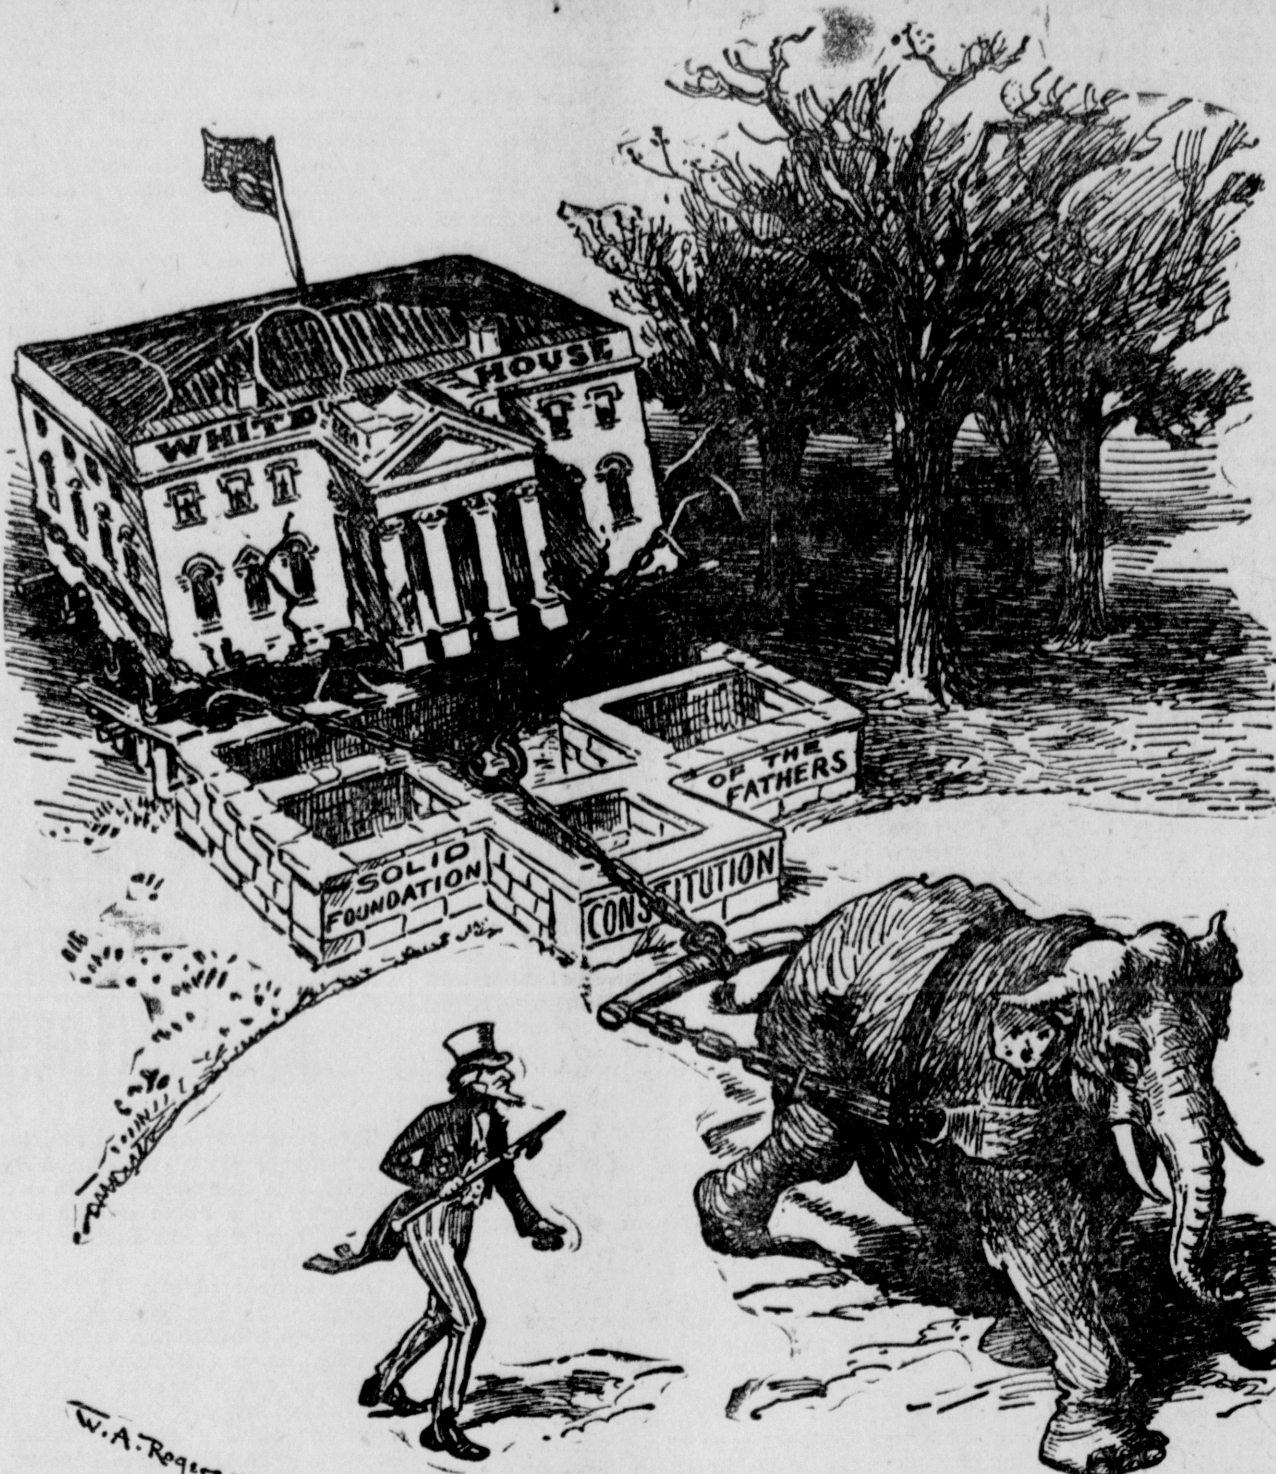

Twenty-one out of the thirty-one Republican states show less than 5 per cent illiteracy; eleven out of seventeen Democratic states show more than 12 per cent of illiteracy; that is, nearly two-thirds (.64), of the Republican states have an illiteracy of less than 5 per cent; nearly two-thirds of the Democratic states (.64) have an illiteracy of more than 12 per cent.

It is reported that in Anniston, Alabama, in the winter of 1918, 1,203 white children and 1,934 negro children were denied admission to public schools for want of buildings. It takes something more than compulsory attendance laws to provide education for all the people.

Note this: 34 states have compulsory school attendance laws; 26 are Republican; 8 are Democratic.

Illiteracy, 64 per cent of the Republican states have an illiteracy of less than 5 per cent; 64 per cent of the Democratic States have an illiteracy of more than 12 per cent.

## CINCINNATI TEAM TO MEET MAROONS

The Review Indians, 1919, 150 pound champions of Cincinnati, will do battle with the Xenia Maroons on the local yard next Sunday afternoon.

That the club is one of the fastest in the Queen City, is verified by Coach Moeller, whose home is in Cincinnati and who investigated the prowess of the down-state club for trying up with them for a game next Sunday.

Fans who accompanied the Maroons to Piqua last Sunday and saw the hair-raising game there were more than pleased with the showing of the locals despite the defeat handed them. Spectators did not figure much of a chance for Xenia when the locals lined up against the bigger and heavier Piquads.

## SOPHOMORES DEFEAT FRESHMEN 15 TO 0

Playing in a sea of mud, the sophomore football team proved to be the better mud-hens at Dodds field Tuesday afternoon, and defeated the Freshmen eleven 15-0, in the first game of the inter-class series of Central High School.

The game eliminates the freshmen from further contest in the class championship series. Wednesday afternoon, the juniors and seniors were scheduled to tie up to decide the championship of the upper-classes. The winners of this game will settle the school championship argument with the sophomores.

The class games were scheduled for this week because the schedule does not call for a regular interscholastic game. Coach Young's charges will lay-off this week end, but one week from Saturday will play Miami High School here, the game being one of the few home contests scheduled on Saturday afternoon.

## With The Women of Today

One of the best known women at the Woman's party headquarters in Washington, is Miss Sue White, of Nashville, Tenn. Although Miss White has not been a member of the Women's party headquarters long, she already has established a reputation as a worker. When the suffrage fight became hot down in her home state recently she went right back home and talked plain southern talk to the home folks. Research is her line of work.

Before she came into the suffrage camp she was secretary to the state commission for the blind. She is widely known and liked in Tennessee.

## MANY GERMAN WOMEN PRACTICE MEDICINE.

Although the number of women physicians in Germany has increased vastly in recent years, their professional services are in little demand. A Berlin correspondent writes:

"There are at present approximately 8,000 women at German universities, twice the number registered five years ago, and almost four times the number entered in 1910. Of these more than 2,000 are medical students. In this relation it may be of interest to test the demand of gynecologic patients for women physicians."

"Dr. W. Feilchenfeld contributed a notable article on this subject in a recent number of the Deutsche Medizinische Wochenschrift. In order to obtain a basis for deciding the question he compiled statistics of the number of members of the Charlotenburg Krankenkasse (sick fund) who were attended by women physicians in 1910 of approximately 52,000 cases of illness."

## THE CORSAIRS.

"The monied interests all combine to get these hard earned planks of mine; the Wall street barons plot and plot to soak me in a tender spot; the cormorants of unearned gold would give their heads to knock me cold." This is the way that James P. Jones declaims to me in trumpet tones, when evening shadows softly fall, and he leans on the garden wall. And if the barons climbed on him, they'd find the pickings mighty slim; for James P. Jones is always broke, his credit is a ghastly joke. And I have always found it thus; the man who makes the biggest fuss about the plutocratic knaves who beat us into early graves, is one who never had a roll, some chap who's always in the hole. I find that if I work and save, and like a thrifty gent behave, I have the plunks to put in brine, and none disputes that they are mine. No Wall street barons are abroad to touch me for my humble wad; no malefactors of great wealth secure that wad by force or stealth. But still I hear this James P. Jones: "I cannot have a store of bones, because the grasping, soulless plutes will rob a poor man of his boots."

## PROBLEM CONFRONTS THOSE WHO FORECAST RESULT OF ELECTION

Prognosticators, who every four years, dope the number of votes to prophesy the election of one or other of the presidential candidates, have a mystery on their hands this year to determine the question uppermost in the mind of the politician—how many women will vote and how will they vote?

Of course the Republicans claim that they have the women all allied with their side, while the Democrats declare the women will vote with them. But both parties should know the women well enough to know that they will vote pretty much as they please, and usually just the opposite from the way they are expected.

In case all of the women in Xenia and Greene County cast their ballots on next Tuesday, there is no doubt but that the total vote of this district will be completely doubled or more so. However, it is not thought that all of the women will exercise their new rights, and it is still a matter of conjecture just how many of them will come out and vote.

The possibility of at least almost twice as many voters this fall as in 1916, is no happy dream for the election official, who will have a real job on his or her hands, this fall in counting the ballots. With the appointment of a number of women as poll clerks there is a great possibility that these women will get their election baptism by counting ballots the greater part of the night. Those who know, do not expect much of a count on the state and national ticket before the day following election.

An idea of how many votes will be cast can be obtained from the 1916 figures, when only men were permitted this right. In that presidential year there were 4,299 votes cast for Hughes and 2,864 for Wilson, a total presidential vote of 7,163. The vote on Governor was considerably heavier. Willis securing 4,703 while Cox was given 2,719 in this county, the total being 7,422. For United States Senator, Herrick received 4,511 votes and Pomeroy 2,756 in Greene County, the total being 7,267 while for State Senator, Murrell polled 4,299 votes in this county and Hiser 2,700 for a total of 6,999 votes.

If these figures are any criterion, there is indication that the vote this fall, with all of the women voting will run at least 15,000 throughout the county.

## PLANS GO FORWARD FOR LOCAL PAGEANT

Mrs. Ruth Mousey Worrell, author of the pageant, "The Red Cross of Peace" which will be given in the Xenia Opera House on the evening of November 11th visited Xenia Tuesday to confer with Mrs. D. D. Jones, and her committee, who have charge of the pageant locally. The pageant made a tremendous hit in Cincinnati where it was first presented and hundreds of communities all over the country are now arranging to give it.

The present time is a critical one for the Red Cross, according to Mrs. Worrell. "The object of the pageant to be given next month is to show some of the activities of the organization, and to present an outline of the work, and the reason why money is needed," said Mrs. Worrell.

## RED SHIPS BLOWN UP BY RIOTERS

London, Oct. 27.—An Exchange Telegraph dispatch from Helsingfors, Finland reports that two torpedo boats at Kronstadt, the Russian naval base near Petrograd have been blown up by rioters. It is asserted that sailors were involved in the rioting.

The message also alleges that the Bolsheviks have employed "Chinese mercenaries" to put down street fighting reported to have taken place in Petrograd and Kronstadt.

## Is It Yours

THIS IS THE BIRTHDAY OF CATHERINE OF VALOIS

October 27, 1401  
Catherine of Valois, who was Queen of Henry V of England, was the daughter of Charles VI of France. She was born in Paris in

1401 and brought up in a convent. As her father became a lunatic and her mother, Isabelle of Bavaria, was supposed to be depraved, Catherine's prospects did not look very bright.

However, when she was seven years old a marriage was suggested between the Princess and Henry, who was then Prince of Wales. When she was 12 and when the Prince had become Henry V of England, the proposal was renewed. But Henry demanded money as well as the lady, and when the money was refused war broke out. Peace was eventually made and when Catherine was 19 she was married to Henry and crossed to England with her husband who had but a few months before been her deadly enemy.

A couple of years afterwards she gave birth to a son, who later became Henry VI. Shortly after the child's birth the King died. Some years afterwards Catherine married Owen Tudor and lived in obscurity with him. Her eldest son by this marriage became the father of Henry VII so that Catherine was the mother of one English king and the grandmother of another.

Owen Tudor was imprisoned when Catherine was 35. She retired to a nunnery and died shortly afterwards.

Her body is buried with her royal husband in Westminster Abbey.

## It Is Performance That Counts!

—For after all, the value of the tractor you buy will depend not only on the price you pay for it, but on the quality of the work it does for you—and the amount.

The Samson Model M Tractor was designed to meet the requirements of those farmers who expect the utmost in tractor service and satisfaction.

Here is a tractor that was not built down to a price—but rather up to a quality standard which insures dependable efficiency and a long life of usefulness.

If you will consider the merits of the Samson Model M Tractor as you do any other investment—not merely from the standpoint of initial outlay, but from the actual dividends it will yield, you will appreciate its intrinsic value as well as the many ways it will make and save money for you.

From radiator to draw-bar the Samson Model M Tractor reflects quality-workmanship and practical consideration of actual farm requirements.

The four-cylinder motor, with which this tractor is equipped, furnishes positive power for both draw-bar and belt work. The cooling system consists of a large tubular radiator and a belt-driven pump, insuring a proper circulation of cool water.

Force feed lubrication is used on this tractor, giving a constant, even supply of oil which keeps all working parts continually lubricated, making for highest efficiency. The transmission is enclosed from dust and runs in a constant oil bath, insuring long life. The high-tension magneto furnishes an even, hot spark regardless of engine speed, making it possible to run the tractor at various speeds with an even flow of power.

The perfect distribution of weight, compact design and low center of gravity give the tractor great stability and insure it hugging the ground under all conditions.

The Samson also comes equipped with a governor, 18-inch pulley, platform, fenders, brackets for canopy top and regular cleats. There is no extra charge for this equipment.

If you are looking for a quality tractor for quality work, you will want a Samson. We have a few more in stock for immediate delivery. Buy yours now. You can use it this fall and winter for countless tasks. Then you will have it all tuned for spring work the moment you need it.

Come in and talk it over with us; or, if you are too busy, write us—today.

## RECORD PURSE HUNG UP FOR DEMPSEY CARPENTIER BOUT; CONTRACT ABOUT READY

New York, Oct. 27.—Changes in the articles demanded by Jack Kearns manager of Jack Dempsey, will be agreed to by all parties concerned and the Dempsey-Carpentier match will be a reality by tonight, according to indications today. Following the announcement Tuesday that terms had been accepted by Kearns for Dempsey and Descamps for Carpentier, the manager of the world's champion "kicked over the traces" and announced that he would not attend today's scheduled meeting at the hotel Claridge to sign the articles. The demands of the champion's manager, it is said, are reasonable enough and can be readily granted by the promoters. One point on which Kearns insists is that

Dempsey's guarantee be paid 24 hours before the champion goes into the ring. Another demand is that he be permitted to name six prospective referees and several judges if the same conditions prevail as at Toledo. Whether or not final articles are signed today Dempsey and Carpentier are as good as matched. They will be tied-up tightly before Carpentier sails for France and the biggest fistic attraction in the history of the game will be staged next summer for the biggest purse ever hung up—\$500,000. Tex Rickard broke all previous records for purses when he gave Willard and Dempsey \$127,500 to battle at Toledo. That fight drew something over \$400,000. The coming battle

between Dempsey and Carpentier, which is practically sure to be staged in New York, will draw \$1,000,000 provided it is staged in or near the metropolis. Hence the purse of a half million is no more nor less than the promoters might have been expected to offer.

In addition to the purse it is believed the boxers will realize as much from the moving picture rights as they do from the big prize hung up by Rickard.

Though no site has been named and no date set it is very probable that the bout will be staged on July 4, in or near New York City. An immense arena, similar though much larger than the one erected by Rickard at Toledo, will be built to house the contest.

Georges Carpentier will sail for France on November 6, and will remain abroad until after the Christmas holidays, returning shortly after the first of the year to start training. Before leaving Carpentier, through his manager, will post a for-

feit of \$50,000 to guarantee his part of the agreement and Dempsey will post a like amount. The promoters, it is understood, will post a forfeit of \$100,000.

Dempsey and the French champion will not be permitted to engage in any bouts after January 1, but both may box prior to that time and it is expected that if the bars against heavyweights are dropped by the New York commission, that Dempsey and Bill Brennan will be matched to battle at Madison Square Garden. This match was definitely "on" at one time but had to be postponed indefinitely because of the attitude of the boxing commissioners.

### COMMISSION WILL INVESTIGATE BOUT

Milwaukee, Wis., Oct. 27.—The Milwaukee state boxing commission to-

day began an inquiry into the ten round bout between Joe Welling of Chicago and Lew Tendler of Philadelphia, before the National Athletic club last night. The club has been instructed to withhold payment to the fighters until the investigation is completed. Tendler defeated Welling easily. The bout was so slow in the early rounds, however, that Chairman Linger, of the boxing commission, instructed the referee to warn the boxers. After that Tendler speeded up and punished Welling effectively.

**FIRE DESTROYS COTTON**  
Warren, Ark., Oct. 27.—Eight hundred and fifty bales of cotton stored by the Warren Cotton Warehouse Co., were destroyed by fire of undetermined origin, which destroyed the company's warehouse here. The loss is estimated at \$75,000.

**LIBERALS OPEN CAMPAIGN**  
Columbus, Ohio, October 27.—A vigorous campaign by advertising against the Crabbe prohibition bill

has been begun by the Ohio Home Rule association. The Crabbe Act is represented as being aimed at the right of citizens to have in their homes beverages of more than one half of one per cent alcohol.

### Will Rheumatism Again Bind Your Hand and Foot?

In syrup \$1 per bottle; in alcohol \$1.25 per bottle; Tablets 50c and \$1 per box. Both FOOD and MEDICINE. Liquid and tablet equal. Send 5 cents for booklet on treatment.

### THE CROWNED QUEEN OF PLANT LIFE.

My Dear Colonel Sterrett:

I had neuritis in my right shoulder and arm and had tried the Osteopaths, Chiropractors and physicians, without help and then 3 bottles of your Alfalfa did the work unerringly. Your medicine has done me and mine a power of good and I thank you. I sent three bottles of your tonic to my son in the hospital at Jacksonville, Florida, and had him out in a few days. His normal weight is 135 pounds. He left the hospital weighing 121 pounds and 3 weeks after weighed 144 pounds, due to the Alfalfa Tonic I had sent him. I have taken some of your Alfalfa Compound Laxative Tablets and find them efficacious.

## DRIFT OF STRAW VOTE WORRIES DEMOCRATS

Chicago, Oct. 27.—"Special straw votes taken by various newspaper, magazines mercantile companies and other concerns are worrying Democratic leaders. Chairman George White of the Democratic national committee declared the other day that these figures are not reliable shortly after the declaration by the Louisville Courier Journal, probably the leading Democratic paper in the south, that 'It is generally conceded that Senator Harding will be elected by a comfortable majority' and after perusing the Cincinnati Enquirer, Democratic, where daily poll shows the senator far ahead of Cox in Ohio. The Enquirer's latest poll shows of 2,231 voters giving notice of a change of sentiment in Ohio, 1,601 Democrats will vote for Harding and only 630 Republicans will switch to Cox.

## GOITRE OF 24 YEARS

Removed by External Home Remedy, for Mrs. G. A. Harbed.

Note: It would be illegal to publish these statements if they were not true.

This article was copied from the Dayton News: "Mrs. G. A. Harbed, 218 Gettysburg Ave., Dayton, O., says: 'I would like to be able to tell every goitre sufferer what Sorbol Quadruple has done for me. If any one cares to write, I will give them my experience. My goitre, which was on both sides and in the middle. About a year ago, I used two bottles, was very hard, large and unsightly, which entirely reduced both sides and the center was made much smaller. Like many people will, I neglected to use more or I would have been completely relieved by this time. A short time ago I began using it again, and the little hard lump in front is getting softer and smaller. My goitre was 24 years standing. I had no ill effects from using Sorbol Quadruple. It did not interfere with my regular work.'

Sorbol Quadruple comes in small bottles containing enough for most cases. It will not stain or irritate. Does not interfere with daily work. Leaves the parts in healthful normal condition. Requires ten minutes daily.

## For the Cool Days— an Essex Sedan

THE season when the Essex Sedan will be most enjoyed and appreciated is at hand.

Its protection and comfort are genuine necessities for the growing class of automobile owners who rely altogether on motor transit to and from their business affairs.

Commodious and luxurious, it combines the riding comfort of the large costly car, with the advantages of economy and easy handling, exclusive to light cars.

Plenty of surplus power makes the Essex Sedan accelerate quickly, and gives it easy dominance in the hills.

That performance ability is especially prized by owners. For in the case of the Essex it removes the objections long held against enclosed bodies on light cars, that they have insufficient power for the additional weight, which results in sluggish performance.

**DISTRICT CONVENTION  
OF K. OF P. HELD  
TUESDAY IN XENIA**

About thirty delegates attended the district convention of the 12th district of the Knights of Pythias, held at the K. of P. Hall, Tuesday. The district is composed of Miami, Clark, Hamilton and Greene counties. Beginning at two o'clock the meeting lasted the remainder of the day.

The principal speaker of the occasion was Grand Chancellor Brum of Cleveland. Mr. Brum's topic was fraternalism, its advantages and its opportunities, and in the case of the Pythian order, fraternalism offers the Pythian Home for the widows, orphans and aged members of the order. The Boys and Girls of the Springfield home was present for the afternoon program.

The evening meeting was open to all visitors, and the Ivanhoe members assisted by the Pythian sisters gave the arranged program. The K. of P. Orchestra furnished the music of the evening. The Misses Helen Hurley and Dorothy Clark sang a duet, and a reading was given by Mrs. Paul Owens. Selections were given by the orchestra preceding the playette, "The Wrong Wright" given by members of the Pythian Sisters. Dancing furnished the entertainment for the rest of the evening. Both dinner and supper were served to the delegates at the Hall by the Pythian Sisters.

**RECIPES FOR A DAY.**  
**Stewed Vegetables a la Serbian**—Quarter dozen ripe tomatoes, remove seeds and stem of eight green peppers, slice; three large onions, sliced; two pounds of weiners, sliced one-half inch thick. Put all into large pan; season with salt, pepper, paprika, dash of chili pepper. Cover and stew for three-quarters hour. This dish serves twelve.

**Fruit Compote**—Peel and slice four bananas, dice six apples, four oranges, four slices pineapple (fresh or canned), three pears, six peaches. Mix with confectioner's sugar and let stand for one hour. Serve in sherbet glasses with whipped cream and a marshino cherry on top.

**Combination Salad**—Sliced tomatoes, cucumbers, Spanish onion, green peppers, on bed of head lettuce leaves, with mayonnaise dressing.

**Apple and Nut Rets**—Three cups of flour, two eggs, salt, warm water to make a stiff dough (not too stiff). Mix well, then take out of bowl and beat on floured board

until smooth. This cannot be done too well, as the stretching depends on the thoroughness of the beating. Then let rest in warm place, covered with warm pan for ten minutes. Cover a table with clean old table cloth, sprinkle with flour. Place dough in center of table, put spoonful of melted shortening in center of dough, and stretch carefully over the table cloth, taking care not to tear the dough in the stretching. When it is as thin as skin take off thick edges, sprinkle surface with diced apples, sugar, cinnamon, ground English walnut meats and a little melted butter. Then take up one end of the table cloth and roll up the dough, lifting the cloth as the dough rolls. Coil like a rope, place into buttered baking pan, paint top with little thick cream (to brown richly) and bake in moderate oven.

**KITCHEN HINTS.**  
**Scrub the Poultry**—The skin of poultry should not only be washed but scrubbed with a soft brush and warm water in which a teaspoonful of baking soda has been dissolved.

**Wash Vegetables Carefully**—Celery, lettuce and other salad plants, because eaten raw, must be washed with the greatest care. They should be searched leaf by leaf for insect life, washed in several waters, and then wiped dry with a clean cloth and put in a cold place to become crisp.

**Do Not Forget the Eggs**—The ordinary way to break an egg is to hit it against another egg or over the edge of the mixing bowl, and let the contents stream over the side of the shell without considering whether the latter is clean or not. Even if there is no visible dirt, the shell may not be as clean as it seems, for it may have come from a dirty nest or have been carelessly handled. Eggs should therefore always be washed before breaking.

**KENNETH'S REPLY**  
Chapter 153

It was really wonderful how easily I had put Kenneth Lawrence out of my life. Wonderful, because for years he had occupied so great a place in my thoughts. After a little we all ceased talking of him, save only occasionally one of us would casually mention his name just as we would that of any other friend. He had written me in reply to my letter: "Dear Zena: To say I was astonished and grieved when I read your letter, is putting it mildly. I had believed you cared for me, at least enough to let me make you care more—as I believe I might."

"You are so sure that you could not be happy with me that I am not going to annoy you with objections. I would have tried my best to make you happy. I could have given you a comfortable home—you and your mother. That you prefer to go on working in an office proved to me, more than anything else you said, that you do not love me. I had built an air castle and it has fallen to pieces. I will try and be content."

"It was kind of your mother to send me so dear a message. Tell her so for me, and that I appreciate it thoroughly, and hope some day to see you all once more."

"I shall not come to Chicago—why should I? If I had any hope that I could make you change your mind I would take the next train. But your letter left me none. It bore too plainly the mark of finality."

"You said 'we never had been lovers—I don't quite understand. Was there something you expected me to do and be, and in which I failed? I am not demonstrative. I did not think you were of that you would care for open marks of affection. I hope some day, Zena, you will marry. And I sincerely hope that your future will be happy whether you do or not."

"You know my views about women in business. I believe woman's place is in the home. Feeling as I do, I cannot understand your attitude—that you prefer to slave in some man's office instead of having a home of your own where you could exercise your taste, and have things as you wanted them, with a servant or servants to wait upon you."

There was little more, messages to Aunt Susan, and Tom and Mary. When I finished reading I exclaimed, almost hysterically: "Another man who thinks a woman's place is at home!" It seemed as if every man I knew, held the same views. Yet they had fallen in love with girls who worked, business girls, all of them. Why, if they so approved of home girls, did they seek business girls for wives? I asked Mary that question and she said: "I reckon they think we will be more willing to save and help them than girls who never have done anything or earned money."

"Perhaps Mary was right. I am sure I couldn't quit understanding it."

Mother looked at me in rather a peculiar way when she finished Kenneth's letter. I had insisted she read it.

"What is it?" I asked.

"You won't mind I am sure, dear, but it is certainly a queer sort of a letter for a man in love to write."

"All his letter have been about like it," I returned. "I don't believe Mother, he was really in love with me. He liked me, and when he saw I had remembered him—I was a bit silly in telling him how I had thought of him for years—he asked me to marry him because he wanted a mistress for his ranch, a good housekeeper. You remember when he said he would like Aunt Susan to visit us if I married him—that there was plenty on the ranch for a capable woman to do. Then, too, Mother, he never gave me even a flower. Not that I wanted gifts, but I wanted what the gift represented—thought of me."

"I noticed that, too, Zena. It was, perhaps only thoughtlessness, but such things do not make for happiness. I don't mean that a man should spend any amount of money for a girl, even one he is to marry. But I feel, as you do, that small tokens occasionally show only regard and thought. I think, dear, you have been wise—I hope so, anyway."

"I know so, Mumsie dear! I have felt so happy ever since it was settled. I'll be a bachelor girl, and live happy ever after—with you."

**Fill Your Blood With Iron  
If You Want To Be Strong  
WITH PLENTY OF ENERGY AND POWER**

**Says Physician—Explains How Organic Iron Like Nuxated Iron Often Increases the Strength of Weak, Nervous, Run-down People in Two Weeks' Time.**

You cannot expect to forge ahead in life with plenty of energy and power if your blood is thin and watery any more than you can hope to run an automobile on water instead of gasoline. It takes pure, red blood—rich in iron—to keep the human machine working right. Without iron your every action lacks power, your red blood corpuscles die by millions, the strength goes from your body and you drop among the weaklings and failures.

"But when such men and women supply the right kind of iron to their blood, a most surprising change often takes place," says Dr. John J. Van Horne, formerly Medical Inspector and Clinical Physician on the Board of Health of New York City. "The weak, colorless blood which had been moving sluggishly in the veins becomes rich and red and courses through the body, building healthy tissue, giving renewed force and increased strength. Without this rich, red blood with plenty of iron in it, there can be no physical perfection or force to carry on one's work. Yet to take the wrong kind of iron may prove worse than useless just as the wrong sort of food will often fail to give the proper nourishment. Organic iron—Nuxated Iron—by enriching the blood and creating new blood cells, strengthens the nerves, rebuilds the muscles and helps instill the whole system with fresh vigor and endurance whether the person be young or old. I strongly advise every man or woman who is lagged out by worry, work and other strains to build up strength, and health by taking organic iron—Nuxated Iron—for I consider it one of the foremost blood and body-builders, the best to which I have ever had recourse."

Dr. James Francis Sullivan, formerly physician of Bellevue Hospital (Outdoor Dept.) New York and the Westchester County Hospital, says: "I have strongly emphasized the great necessity of physicians making blood examinations of their weak, anemic, run-down patients. Thousands of persons go on year after year suffering from physical weakness and a highly nervous condition due to lack of sufficient iron in their red blood corpuscles. To supply this iron deficiency and to help build strong, healthier men and women, better able physically to meet the problems of everyday life, I believe physicians should at every opportunity prescribe organic iron—Nuxated Iron—for in my experience it is one of the best tonic and red blood builders known to medical science."

If you are not strong or well, you owe it to yourself to make the following test: See how long you can work or how far you can walk without becoming tired. Next take two five-grain tablets of ordinary Nuxated Iron three times per day for two weeks, then test your strength again and see how much you have gained.

**Manufacturers' Note:** Nuxated Iron, which is recommended here, is not a secret remedy but one which is well known to druggists everywhere. Unlike the older iron products it is easily assimilated and does not irritate the stomach. Each tablet of genuine Nuxated Iron is stamped as follows: "Nuxated Iron" and the words "Nuxated Iron" are stamped into each bottle. The name may not be used in any other form. The manufacturer guarantees successful and entirely satisfactory results to every purchaser or they will refund your money. It is dispensed by all good druggists.
